

Individuality

“How does Missouri Farm Bureau represent and support me as an individual?”

Being a part of Missouri Farm Bureau presents members with a unique opportunity that is very different from other organizations. With many ways for members to be involved in a variety of ways and capacities, as well as having their opinions of matters being heard, Farm Bureau members are able to be their own person. Everyone is different, and Missouri Farm Bureau members are treated that way. By deciding what organization, topic, stance, or role you would like to play in the organization, you can make a difference in your own unique way.

With Missouri Farm Bureau, members have the opportunity to grow. Members have the chance to learn more about agriculture while also growing as an individual.

In addition to policy development, Missouri Farm Bureau educates and helps members through communications and education. By developing a podcast and commentary that keeps members updated on various topics and establishing scholarships and grants for students and teachers, Farm Bureau members can become educated in many ways.

Resources for Personal Development and Education:

<https://mofb.org/education/>

- **Food and Farm Facts**
 - The American Farm Bureau Federation releases agriculture statistics that are very beneficial when creating speeches or documents that need information and research.
 - <https://www.agfoundation.org/resources/food-and-farm-facts-2019>
